

## The President's Corner

HARC is facing significant challenges. Our meeting space at the Signals Museum on Fridays will not be available to us after April. However, we are well on the way to resolving those challenges. The Signals Museum has offered us the option of meeting in their space on Monday at

very attractive rental rates. We greatly appreciate their offer and value the relationship between the Museum and HARC. The membership has agreed to move our meetings to Monday evenings. I know this will cause schedule disruptions for members and may require us to increase dues, but I thank the membership for thinking about solutions and accepting the necessity of change. We do have a plan and I do not anticipate major challenges with getting everything sorted out with the new arrangement.

Your President,  
Lisa Shier, N3WQL

## Email Reflector Sign-Up

Want to be informed of club announcements? Would you like to pose a radio question to the membership? This is a reminder that HARC has an email reflector but, YOU MUST CHOOSE TO JOIN IT.

The reason for that is when the reflector was set up years ago, the HARC Board wanted to give individual members the ability to specify their choice of email address and the ability to choose a digest format or once a day emails. And it was evident some people did not wish to be automatically enrolled.

As it is, HARC only sends 2 or 3 emails annually to the entire membership, those being the HARC/NARA meeting announcement where dues are collected, and a Field Day blast. By joining the reflector, you'll stay informed of all the other news & happenings.

Joining is simple.

1. Open the [www.harc.net](http://www.harc.net) page in any browser.
2. At the lower left corner of the page, click on the envelope icon 'Join Our Email List'.
3. Fill out the form with your preferred email address and choose individual email or daily digest.

No WINTER FIELD DAY

Club Membership Dues payments are due.

SKYWARN Storm Spotter Class January 20, 2026 at 6:00PM at the SPACE & ROCKET CENTER - National Geographic Auditorium.

January 17<sup>th</sup> is a Signal Museum workday beginning at 9:00AM

## Meeting Minutes—Continued

New HARC Badges will be available next week.

New TECH Class at Giga-Parts at 6:00-8:00PM.

### Presentations:

Tonight - NARA-HARC Joint Meeting

January 23<sup>rd</sup> - ARRL Equipment Insurance

January 30<sup>th</sup> - Auction Night

### New Business:

N3WQL- Lisa presented the result of her meeting with Mark Bendickson regarding the HARC's Friday night meeting space some of the options presented with factors that may affect the Club financially after this year.

Move our meetings to a different location.

Friday nights at Giga-parts are already booked.

Open market rates for meeting space are \$50-\$75/hour.

Many possible meeting places do not have Zoom facilities.

Our best bets are likely to be a served agency or a church, but we have not had much luck finding places to meet when Signals Museum is not available.

Move our meetings to Monday or Wednesday night and stay at Signals.

If we wish to continue meeting weekly, we sign a contract and pay Signals \$2000/yr. At first estimate, this could require that we increase our dues.

If we wish to reduce our meeting frequency to once a month, like most radio clubs, it would be \$700/yr. Increase in dues would probably still need to be considered.

Wednesday nights are already taken for many people with church activities.

The HARC Board favors the moving of the meeting to Monday night. Signals has the necessary space and technical resources to meet our Club's needs.

Lisa requested conversations this week. We will consider the matter at the next club meeting on January 23, 2026 and vote on the issue.

### New Memberships:

Dean Korsak - KR4IFF

Philip Staite - W7RXH

Paul Nelson - K4JAZ (returning member)

Martha Nelson - KM4CZY

Ronald Lamb - WB4VDN

### Date: January 23, 2026

Call to Order at 7:30 PM By: Lisa - N3WQL

Adjourned 7:45 PM

Attendance: In Person 0 Zoom 32 Visitors 0 Total 32

### Announcements:

**Zoom-only** meeting due to Winter Storm Warning.

Winter Field Day January 24 & 25, 2026.

Club discussion on new meeting location was postponed until January 30 meeting.

## Meeting Minutes—Continued

Stay Weather Aware.

### Presentation:

Tonight - ARRL Equipment Insurance  
January 30<sup>th</sup> - Auction Night

### Business:

Club discussion on meeting location was postponed until January 30<sup>th</sup> meeting.  
-----

### January 30, 2026

Call to Order at 7:30 PM By: Lisa - N3WQL      Adjourned 8:10 PM  
Attendance: In Person    56                  Zoom    5      Visitors 5    Total 66

### Announcements:

FIELD DAY - Leigh-WD4CPF agreed to Chair the Field DAY one last time to train a replacement for him to head up future Field Days. Volunteers are requested to fill this responsibility.

Mike - KF4BOG Announced his All-Star node is operational AL#580980

Tom - WS4M Presented a brief slide show of his Michigan Amateur Radio Club's Winter Field Day.

### Presentation:

Tonight- Auction Night led by Steve- KI4KWR  
February 6<sup>th</sup>- WA1W/4 Steve KI4KWR  
February 13<sup>th</sup> - Signals Museum Tour

### Business:

Meeting Location Discussion -

Lisa presented the result of conversations with Signals Museum regarding HARC's continued use of the Museum as a meeting place. Signal has offered a contract for a year's use on Monday nights for \$2,000.00 beginning by the end of April. She also discussed the lack of other reasonably priced spaces to accommodate the Club. Discussions and question after the motion and second to accept Signals' offer included meeting time, continuation of contract after the one year and if early arrival and social time would still be happening. **The motion passed and the new Monday meeting start time would be 7:00 PM** instead of the current 7:30. The start time will be reviewed 90 to 120 days after the change to determine if the meeting could begin at 7:30. The timing of the Friday to Monday meeting day change is still to be determined.

Bill - K4IBY addressed the dues payment and receipt issue and its resolution.

### New Memberships:

Mike Holland - KK4PMW

## Arduino Build Night Photos—by Dick W1TV

## For Sale

Yaesu FL2100B 80-10m linear amplifier

I acquired the thing years ago from a club auction in a "no output condition". The amplifier was cleaned and retubed in Oct. 2020 and tested it. I did an article on my efforts for the Long Path around then if you want to check it out. It barely been used since then.

The amp is wired for 110v. Testing showed with 80w drive it will put out from 450w to 700w into a dummy load for 80m - 15m. It is ineffective on 10m for some reason. You may be able to improve that by adjusting the bias and the filters. But I never did.

The amp isn't pretty to look at - it looks like someone previously tried to repaint the chassis with a broom. But all the meters and controls and knobs are present and work. More pictures available upon request.

Asking \$400. Contact me at AA2MA@arrl.net if interested. 73, Mark

Mark's actual amp.

# ARES Monthly Meeting Minutes - by Steve KM4CJ

Madison County, Alabama ARES Monthly Meeting Minutes  
January 8, 2026

The meeting was conducted at the Madison County EMA EOC.  
There were 20 in attendance.  
The meeting started at 18:00 central time.

Tim, KK5H – Announced ARES Shirts can be purchased from GigaParts for \$24.95. He also mentioned the National Weather Service Storm Spotter training will be held Tuesday, January 20<sup>th</sup> at the Space and Rocket Center.

EMA – Chris, AI4U, thanked everyone for there support to the EMA and to be weather aware for the end of this week.

CERT – James, KQ4VYQ, announced a new CERT class has started this week.

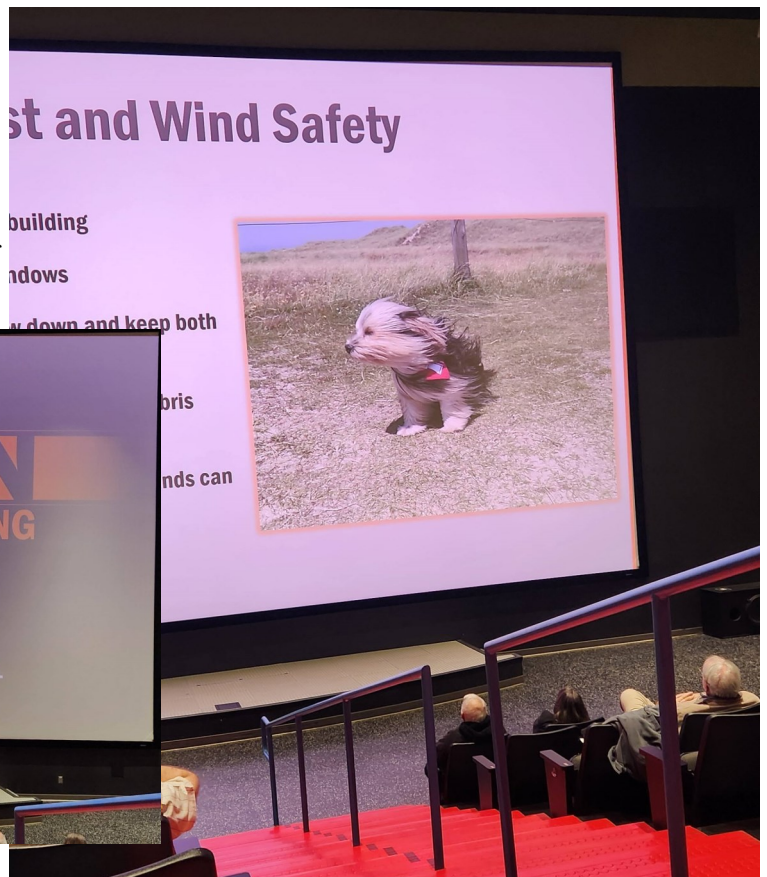

## Program:

Steve, KM4CJ, discussed programming your DSTAR radio respect to the DTAR repeater call sign change from W4WBC to N4HSV. Steve talked about the role of the SKYWARN liaison during the training and activated nets.

Meeting adjourned 18:45 central time.

Respectfully Submitted  
Steve Smith  
Assistant Emergency Coordinator  
ARES Madison County

Addendum: The NWS Spotter training class was held January 20th at the US Space and Rocket Center. There were 15 ARES members in attendance and an estimated attendance of 70.

## HARC Programs on YouTube — by David KQ40AO

Programs presented at HARC meetings are typically recorded and uploaded to the YouTube HARC channel, allowing members to view them at their convenience.

During the month of January three new videos were added to the channel:

The North Alabama Repeater Association (NARA) Annual Meeting. Ralph Hogan (W4XE), the NARA president, presented opening remarks followed by the 2025 year-end financial report. This was followed by a recap of 2025 as well as the plan for 2026. The presentation concluded with the election of the 2026 NARA club officers.

Ham Radio Equipment Insurance. Steve Molo (KI4WR) discussed various options for HAM radio equipment insurance options. The companies covered included Risk Strategies (ARRL), AMBA, Ham Radio Insurance Associates, and HRIA. Towards the end of the presentation, members discussed tower base construction.

North Ottawa Amateur Radio Club (NOARC) Winter Field Day. Tom Cash (WS4M), who became a Snowbird this past year, found and joined a HAM radio club in Minnesota, NOARC. He shared photos and emails from fellow club members documenting their Winter Field Day operations. Tom was kind enough to pass along this information to the Huntsville Amateur Radio Club (HARC).

These recordings can be accessed via the following link: <https://tinyurl.com/4yeacdfk>. They can also be reached by scanning the QR code shown to the left, either will take you directly to the playlist. Additional archived videos will be added over time, so make sure to check back to see what's new.

The channel also features a HARC Tech Class playlist containing eleven instructional videos. These sessions are particularly valuable for amateur radio operators seeking a refresher on foundational concepts that may not have been revisited in some time.

For those interested in the discussions surrounding the decision to move the club meeting from Friday night to Monday night, the recordings are posted here: <https://tinyurl.com/4m3yneaz>.

## General Announcements

For those who are interested in learning CW but need some Elmering, Laura K4CNY has created a GroupMe group that you can use to ask questions and arrange with Elmers for on-the-air practice.

If you are interested in Elmering, we can always use your help!

To join, click here: [https://groupme.com/join\\_group/70112276/7m2J4Tpk](https://groupme.com/join_group/70112276/7m2J4Tpk)

## HAYLARC Happenings—by Lisa N3WQL

HAYLARC met at Big Papa Gyros on January 8. We planned to gather at Lynda Barlow's home to make contacts during winter Field Day, but this activity was cancelled due to adverse weather.

Our next meeting is our annual Anniversary Dinner. It will be held on February 5 at 6:30 PM at Longhorn Steakhouse on Carl T. Jones Blvd. OMs are welcome to attend with members. This meeting is a week early to avoid conflicts with Hamcation and Valentine's Day.
